IMPORTANT INFO!

Dear Customers,

As the leader in the tattoo and piercing industry in our region, we have always cared about safety in the body art process and environment. We have passed every single inspection since our inception in 2001 and have exceeded the governmental standards for cleanliness, sanitation and sterilization. We have always been up-to-date on bloodborne pathogens and universal precautions training. Cleanliness is the name of our game, always has been, and always will be. Given the current COVID19 situation, we are taking further steps at this time.

How are you feeling? If you sense even a whiff of illness, call us first. Let's discuss options.

Your artist will be absent if he/she isn't feeling well either.

Don't worry, your appointment can be happily rescheduled!

New Policy: Only you and your artist will be in the artists' station during your tattoo or piercing.

Please follow our Facebook Pages and websites for updated info.
